About our business and goals

Moments of Bliss Midwifery Services is a home birth midwifery practice serving Central and Western Oklahoma. Started in 2014 by Dawn Karlin APRN-CNM, Moments of Bliss Midwifery Services is the culmination of Dawn's dream to give women better choices.

Our mission is to provide expert care in a compassionate, culturally sensitive, and holistic manner. We celebrate the experience of pregnancy and childbirth as normal and healthy life events.

We encourage women to maintain good health through lifestyle and preventative medicine choices. Through education and teamwork, women will be empowered and families will be strengthened. We value each woman and each family as unique and will strive to tailor your care to fit your needs.
